

REDISCOVERY CENTRE

Environmental Education Facilitator

The Rediscovery Centre, Ballymun, Dublin 9

The Rediscovery Centre

The Rediscovery Centre is a national centre for waste education, research, innovation and enterprise development which aims to demonstrate excellence in waste prevention, reduction, reuse, recycling and recovery. Sustainability is at the core of the Rediscovery Centre, which aims to break away from the traditional views of waste and waste management systems and instead demonstrate the potential of waste resource. For more information please see www.rediscoverycentre.ie

Our new centre in Ballymun, the WISER LIFE project, is transforming the iconic Ballymun Boiler House into a 3D textbook; a novel interactive experience and learning environment designed to stimulate curiosity in the natural, physical and cultural environment and promote sustainable living for the circular economy. The Rediscovery Centre is very active in the field of waste and environmental education. The Rediscovery Centre offers a range of education workshops for primary and secondary school students, which focus on interactive, practical learning about environmental issues. The school workshops are linked to the national curricula and are based on hands-on enquiry and experiential learning tailored to class requirements. Workshops are offered in the Rediscovery Centre's Boiler House in Ballymun or onsite outreach workshops in schools covering topics related to science, technology, engineering and maths (STEM).

We are currently seeking enthusiastic and flexible individuals with a passion for environmental education to join our panel of Environmental Education part-time facilitators.

The Role

Reporting directly to the Education Programme Manager, the Environmental Education Facilitator role will relate primarily to deliver and facilitation of primary and second level environmental education workshops.

The role will include but will not be limited to:

- The delivery of primary schools workshops, both in Ballymun and in schools and libraries in the greater Dublin area (outreach)
- The delivery of second level schools workshops, both in Ballymun and in schools and libraries in the greater Dublin area
- Ensuring the professional delivery of all education programmes
- Preparation of materials for workshops
- Supervision and training of interns

Terms and conditions of employment

Note: This summary is supplied for information only and does not constitute contractual terms.

This is a part-time flexible hours contract of service, subject to the ongoing requirements of the Rediscovery Centre's Education team. Some work outside normal office hours will be required from time to time. The role is seasonably variable due to school demand.

The post will be based at the Rediscovery Centre, The Boiler House, Ballymun Road, Ballymun, Dublin 9, D09 HK58.

Fees will be paid at an hourly rate with a mileage allowance for eligible travel.

Access to own transport is essential for outreach workshops.

The Application Process

Expressions of interest in the form of a CV and covering letter illustrating how your skills and experience match the requirements of the post emailed to: info@rediscoverycentre.ie marked for the attention of Sarah Clear. The covering letter should be a maximum of 2 pages. The closing date for applications is **12 noon on 18th September 2017**.

Based on the information contained in the CV and cover letter, the interview committee will select candidates for interview. Shortlisting and interview decisions will be based on the committee's assessment of candidates' qualifications, experience and skills in the following areas:

Academic qualifications:

- Third level qualification in environmental science, science communication, teaching or other relevant qualification.

Experience:

- Proven experience in environmental education
- Experience working with children

Skills:

- Excellent facilitation skills, especially with young people
- Excellent communication skills, both oral and written
- Knowledge of the primary and/or secondary curricula and programmes such as Green Schools
- Full clean driving licence and access to own transport is essential
- The ability to inspire and motivate children and adults to engage with the environment, science, engineering and maths
- Strong IT skills (Microsoft Word, Powerpoint, Outlook and Excel essential)
- Knowledge of or a strong interest in environmental issues and sustainability
- Strong organisational skills, excellent interpersonal skills, a flexible and enthusiastic approach to work, professional and reliable
- Competency in Irish would be an advantage

Interviews

Interviews will take place in Ballymun **on 21st September 2017**.

All applications will be treated in the strictest confidence. References will be sought for candidates who come under serious consideration for the post with the prior agreement of candidates. The Rediscovery Centre is not able to reimburse any expenses incurred by candidates to attend interview.
