Bat Conservation Ireland

Bat Conservation Ireland is an NGO dedicated to the conservation of Ireland's bats. They promote conservation by education, giving talks and leading bat walks, carrying out nationwide surveys and monitoring of bats, acting as an umbrella group for the local bat groups and recording data on bats.

To properly protect Irish bats, it is important to know to find out how their populations are doing, in other words, whether they are increasing, decreasing or stable by regular monitoring. Bat Conservation Ireland run bat citizen science monitoring projects.
