National Museum of Ireland – Natural History

The National Museum of Ireland - Natural History, also known as the Dead Zoo, is a wide-ranging and comprehensive zoological collection of more than 10,000 exhibits. Visitors can explore Irish mammals, birds, fish and insects, as well as mammals from around the world.

Highlights include skeletons of Ireland's extinct giant deer and a huge basking shark suspended from the ceiling. Don't forget to check out the Museum's range of engaging and imaginative curriculum-linked online resources for [schools](#) or take a [3D Virtual Visit](#) of the exhibitions from the comfort of your classroom!
