The Rediscovery Centre

The Rediscovery Centre (RDC) is the National Centre for the Circular Economy. Our mission is to lead Ireland's transition to a circular economy and sustainable future, promoting a society that is fair, inclusive and thrives within natural resource limits. The Rediscovery Centre is a creative movement connecting people, ideas and resources. We bring together the skills and expertise of artists, scientists, designers and craftspeople united in a common purpose of sustainability through resource efficiency and reuse. Sustainability is at the core of the Rediscovery Centre, which aims to break away from the traditional views of waste and natural resources and instead demonstrate the potential of the circular economy.
