

About the Rediscovery Centre

The Rediscovery Centre is a creative space connecting people ideas and resources. We bring together the skills and expertise of artists, scientists, designers and craftsmen, united in a common purpose of sustainability, resource efficiency and reuse.

Rediscovery Centre's Education Programme provides a variety of exciting workshops that are based on hands-on enquiry and experiential learning. We offer a range of workshops for both primary and secondary levels. Our Education Team can deliver workshops in schools and libraries around the country and virtually online. Our educators are trained in the delivery of environmental & STEM education and are Garda vetted. The Rediscovery Centre is an accredited SFI Discovery Centre.

Workshops for Libraries

Our education workshops are 90 minutes in duration and link to the school curriculum through a range of subjects. Our education workshops for primary and secondary schools cover a variety of environmental and STEM topics. Each workshop features a presentation, a range of interactive activities and ends with a feedback session to encourage the students to share what they have learned. We can facilitate a maximum of 30 students per workshop.

We offer specific workshops for Science Week, Maths Week, Engineers Week and Summer Reading Schemes. We also offer arts and crafts workshops that can be tailored to the library's requirements.

Available Nationwide!
