

## About the Rediscovery Centre

The Rediscovery Centre is a creative space connecting people ideas and resources. We bring together the skills and expertise of artists, scientists, designers and craftsmen, united in a common purpose of sustainability, resource efficiency and reuse.

Rediscovery Centre's Education Programme provides a variety of exciting workshops that are based on hands-on enquiry and experiential learning. We offer a range of workshops for both primary and secondary levels. Our Education Team can deliver workshops in schools and libraries around the country and virtually online. Our educators are trained in the delivery of environmental & STEM education and are Garda vetted. The Rediscovery Centre is an accredited SFI Discovery Centre.

## Teacher CPD Workshops

Our CPD workshops are 90 minutes to 2 hours in duration and link to the school curriculum through a range of subjects. The workshops cover a variety of environmental and STEM topics and link with the Sustainable Development Goals. Each workshop features a presentation, a range of interactive activities and ends with a feedback session to enhance learning. We can facilitate a maximum of 20 teachers per workshop.

Our CPD workshops for primary and secondary teachers revolve around the theme of STEM and Sustainability. Each of the workshops will use a societal challenge related to sustainability and STEM to be examined in terms of STEM thinking and solution generation.

**Available Nationwide!**

## Workshop Topics

For information on our other Workshops, check out our brochures for Primary and Secondary Level Workshops

### CPD workshops for Primary Teachers

#### Sustainability in the Classroom Teacher CPD workshop:

The Sustainability in the Classroom Teacher CPD workshop explores the science of sustainability, the value of sustainability, sustainability and the circular economy in action and how sustainability is linked with different subjects in a cross-curricular approach. The workshop includes a range of activities and resources for teachers.

#### Sustainable Maths Teacher CPD workshop:

The Sustainable Maths Teacher CPD workshop explores the key challenges for teachers in teaching Maths for additional/special needs students, and how sustainability can be incorporated into the Maths curriculum. The workshop includes hands-on activities for teachers to make sustainable Maths resources using simple materials and investigate the resources. This workshop is suitable for primary teachers and SNA's working with children with additional/special needs.

### CPD workshops for Post-Primary/Secondary

#### The Value of Sustainability Teacher CPD workshop:

The Value of Sustainability Teacher CPD workshop for post-primary teachers explores the science of sustainability, the value of sustainability, sustainability and the circular economy in action, and how sustainability links with different subjects in a cross-curricular approach. The workshop includes a range of activities and resources for teachers.

#### Sustainable Fashion Teacher CPD workshop:

The Sustainable Fashion Teacher CPD workshop explores the impacts of the fashion industry, the concept of sustainability, and the principles of sustainable and circular fashion and examines how STEM can provide solutions for the future of the fashion industry and consumer choice. This workshop links with a range of subjects including Science, Home Economics, ESS and Geography.
